I. Community Description

Gratiot County covers 365,081 total acres in the middle of Michigan’s Lower Peninsula. It consists of 16 townships that are each about 36 square miles in size. The largest cities of the area include Alma, Ithaca and St. Louis along with the villages of Breckenridge, Perrinton and Ashley. The 2012 estimate of the population was 42,063 with almost 87% of this population being Caucasian. According to the 2000 census, the total population was 42,285 – thus, this number has been relatively stable over the past decade. As can be seen by the chart below, the majority of the population (40.8%) is between the ages of 25-54. 19.7% of the population is below the age of 14 and only 18.1% of the population is above the age of sixty.

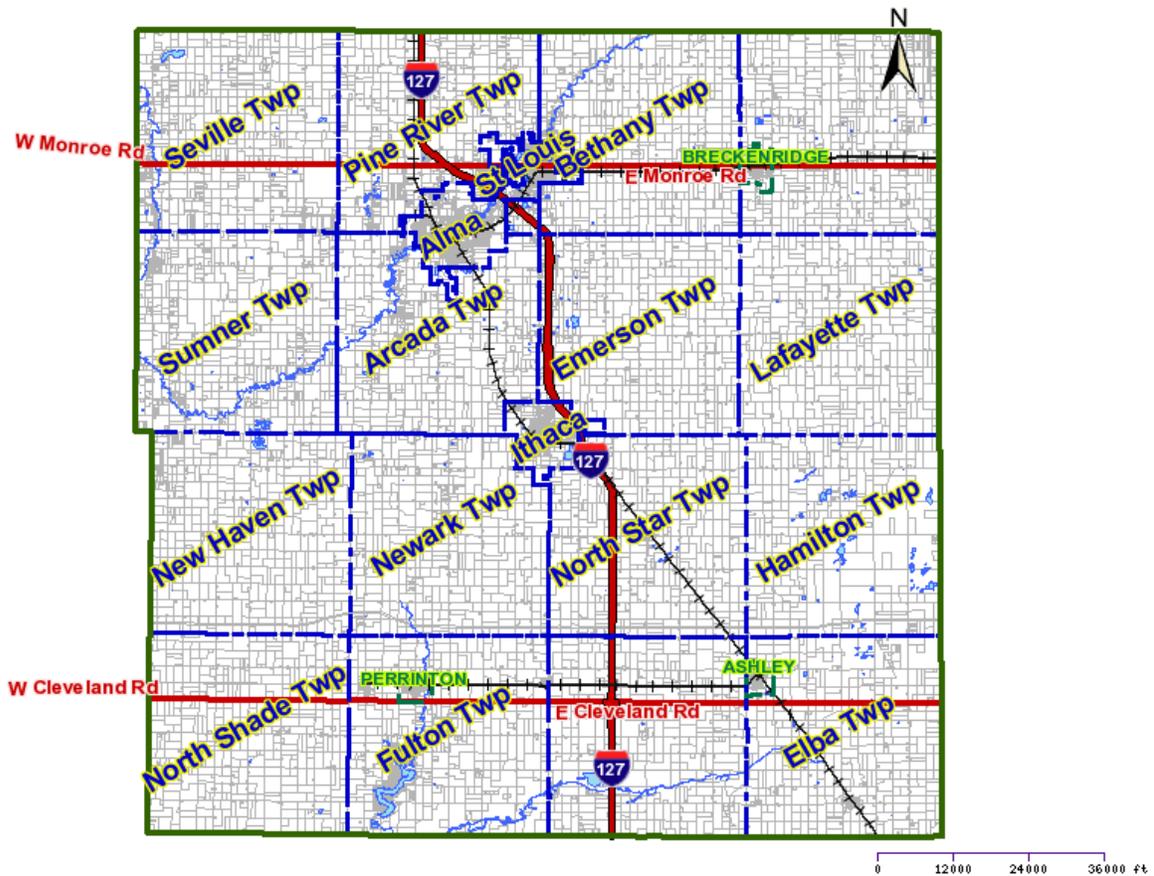

Under 5 years	2,865	6.8%
5 to 9 years	2,653	6.3%
10 to 14 years	2,787	6.6%
15 to 19 years	3,538	8.4%
20 to 24 years	2,953	7.0%
25 to 34 years	5,372	12.8%
35 to 44 years	5,993	14.2%
45 to 54 years	5,796	13.8%
55 to 59 years	2,506	5.9%
60 to 64 years	1,869	4.4%
65 to 74 years	2,811	6.7%
75 to 84 years	1,829	4.3%
85 years and over	1,156	2.7%

The average household size of Gratiot County is 2.49 with the median income per household being \$39,867 and the mean income being \$52,762. In 2011, the per capita personal income, which is the average earnings of all the citizens of the county, was \$30,647. This figure is about \$6,000 less than the per capita personal income of the state of Michigan (\$36,264) and the nation (\$41,560). Almost 18% of individuals living in Gratiot County are below the poverty level. As of September of 2013, the unemployment rate of Gratiot County is 9.3%. Almost 7,000 citizens are considered to have a disability – which makes up 18.5% of the population. These citizens may need accommodations to utilize recreation facilities and to participate in programs.

Gratiot County recognizes the importance of parks, recreation and leisure, in order to enhance the quality of life of its residents. With input from the Parks and Recreation Commission, park staff, county officials and residents at large, this plan was completed. The purpose of this plan is to encompass all aspects of recreation in the Gratiot County area, specifically involving the four regional parks that the department operates (Hubscher, Reed, Luneack and Pompeii).

II. Administrative Structure

Background:

In 2000, a major budget catastrophe forced Gratiot County to eliminate its parks and recreation department and to close the two parks that the department operated, Reed County Park and West Park (later known as Paul Hubscher County Park). The budget crisis stemmed from the closing of Total Petroleum in Alma, which was a key employer and taxpaying organization, along with lost revenue sharing dollars from the State of Michigan. Because of the decrease in revenue for the Gratiot County general fund, the decision was made to entirely cut the Gratiot County Parks and Recreation Department.

Following this decision, a group of community leaders banded together to campaign for a county millage referendum to fund the parks and the department. In November of 2004, the voters of Gratiot County passed an eight year millage dedicating .35 mills to re-open, manage, and improve the two county parks. Four months after the millage was approved, in March of 2005, a parks and recreation director was hired, thus, reinstating the Gratiot County Parks and Recreation Department.

In 2012, an eight year, .3498 millage was renewed by Gratiot county voters. With a renewed millage, the parks commission will continue to manage and operate existing parks and seek to expand the park system.

Present Day:

The Gratiot County Parks and Recreation Department operates four entities: Reed County Park, Paul Hubscher County Park, Luneack County Park, and Pompeii Park. The organizational structure of the department can be seen on page six. The Gratiot County Board of Commissioners consists of seven individuals from the various districts of Gratiot County. The cities and townships that makeup these seven districts are highlighted below:

- District 1: New Haven, Seville, and Sumner Townships
- District 2: City of Alma Precincts 1 and 2
- District 3: City of Alma Precinct 4, and St. Louis Precinct 2
- District 4: City of St. Louis Precinct 1, Bethany, and Pine River Townships
- District 5: City of Ithaca, Arcada, and Newark Townships
- District 6: Emerson, Hamilton, Lafayette, North Star, and Wheeler Townships
- District 7: Elba District 1, Elba District 2, Fulton, North Shade, and Washington Townships

The Parks and Recreation Commission was created by resolution of the Gratiot County Board of Commissioners on November 2, 2004 according to Act 261 of 1965. The parks commission consists of ten members, four of those holding positions in various County

departments and the other six being citizens at large appointed by the Board of Commissioners.

Parks Finance:

The main source of funding for the Gratiot County Parks and Recreation Department budget is the aforementioned millage, which is .3498 mills, and is estimated to bring in over \$445,000 for the 2014-2015 fiscal year.

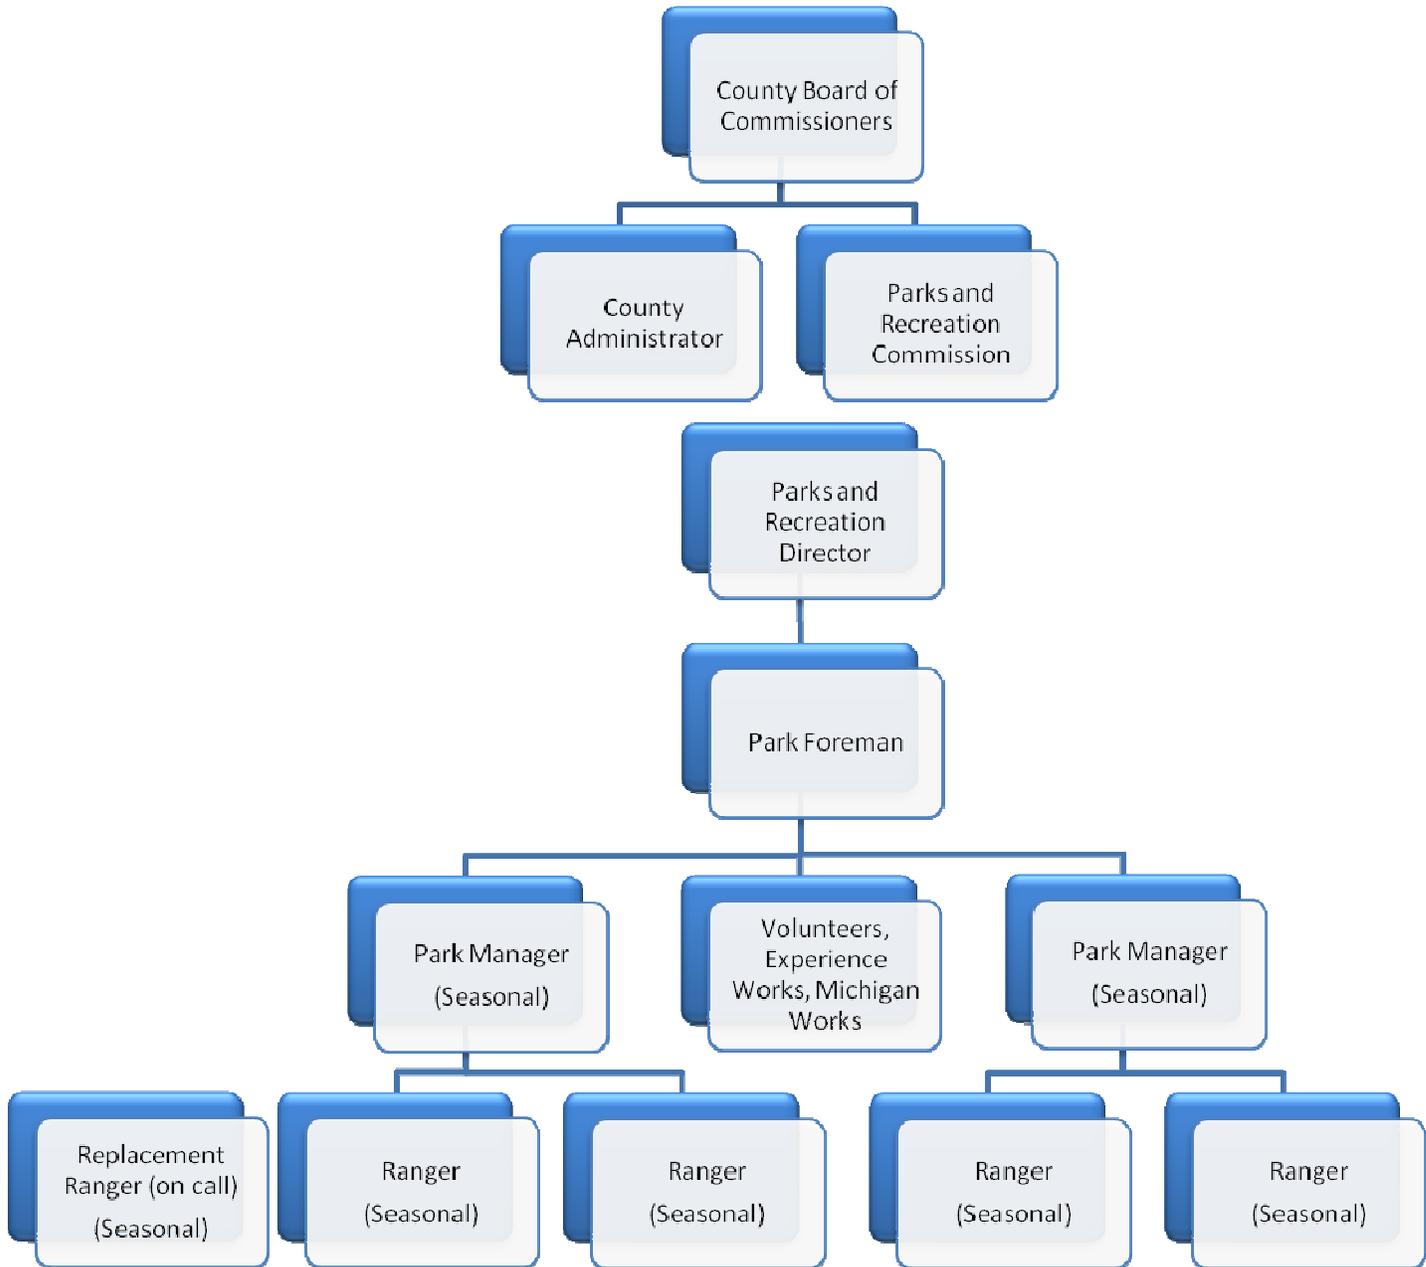

The table below identifies budget information specific to the Gratiot County Parks and Recreation department for the 2014-2015 fiscal year.

Category	Amount
Wages and Benefits	\$188,420.00
Grounds Maintenance and Equipment	\$89,300.00
Office, Phone, Advertising, Training, Travel	\$36,000.00
Utilities, Fuel	\$22,000.00
Capital Improvements	\$110,000.00
Total	\$445,720.00

Partnerships

Partnerships and relationships with private and public entities have been developed. Little League and Adult Softball Leagues utilize the softball fields located at Reed & Hubscher County Parks. A professional disc golf association assisted in the development of the disc golf course, located at Reed County Park. The Friends of the Pine River was established in 2012 to help promote recreation on the Pine River in Gratiot County, this group has helped to establish access sites on the river and promote the river with an updated map of the Pine River Canoe Trail. Gratiot County Parks and Recreation has partnered with Mid-Michigan Community Pathways to assist in the establishment of non-motorized pathways in the County. Along with this, various organizations, such as the 4H Club, Boy Scouts, and local Public Schools have utilized the parks for group recreational activities they may have planned. The Parks and Recreation department hopes to develop and improve upon their relationships with private organizations, public agencies, school districts, and community recreation departments in their future endeavors. This includes working with these agencies to create and implement leagues, tournaments, programs, and community events – which will be further discussed in the goals and objectives section.

Other Recreational Facilities:

Fred Meijer Heartland Trail: A 41-mile, multi-purpose trail that stretches from the northern edge of Greenville in Montcalm County, to Alma in Northern Gratiot County. Forty-one miles of the trail are paved, from Greenville to Edmore. The trail travels through woods, wetlands, meadows, agricultural lands, and historic attractions.

Counties:	Gratiot, Montcalm
Trail Length:	41 miles
Trail Category:	Rail-Trail
Trail Surfaces:	Asphalt, Gravel, Ballast
Trail Activities:	Walk, Bicycle, Cross Country Ski, Inline Skates, Wheelchair

Clinton- Ionia- Shiawassee Trail: A proposed rail trail to the south of Gratiot County, still in the development phase, with 2.7 miles paved, possible future connection to the Fred Meijer Heartland Trail.

City/School Systems: The communities of Alma, Breckenridge, Ithaca, and St. Louis each have their own park and recreation systems, which operate parklands that are generally classified as neighborhood and community parks. The four communities mentioned above, in addition to Ashley and Fulton, operate public school districts which also provide recreational opportunities. Alma is the home of Alma College, which offers certain recreational facilities, programs and services to community members.

St. Louis High School

Comparison to Recreation Standards: Gratiot County operates approximately 185 acres of county park land for just over 42,000 residents. Industry standards recommend 5-10 acres of regional park land per 1000 citizens, which equates to 200-400 acres of park land for Gratiot County. Therefore, according to this standards, Gratiot County would be 25 acres below satisfactory. However, guidelines also state that the number deficiencies are okay, as long as the organization meets the “Level of Service” desired by the Gratiot community. Due to the various other recreational offerings from public and private organizations, this “Level of Service” is met. As the parks offer two of the very few beach areas in the county, the NRPA guidelines regarding facility development standards were reviewed. According to these guidelines, beach areas serve residents that are 30 minutes to an hour away from the area. Because Reed County Park and Paul Hubscher County Park are within a 12 mile driving distance from most of the townships in the county, these parks fall within that guideline.

Source: Spicer Group: Gratiot County Parks and Recreation Master Plan 2005-2010

Accessibility: In the Recreation Inventory, it is shown that Paul Hubscher County Park received an accessibility ranking of 3 and Reed County Park received a ranking of 3 based on the DNR assessment scale. In the 2005-2010 Gratiot County Parks and Recreation Rec plan, Reed County Park only received a ranking of 1 and has thus improved significantly over the past few years. Through a grant, which will be described below, the county was able to add handicap accessible restrooms, parking, pavilions, and a playground. Efforts have been made to improve the accessibility standards of Paul Hubscher County Park by adding handicap accessible restrooms, parking, pavilions, walkways, and a playgrounds as the department continues to develop the park.

DNR Accessibility Ranking System:

- 1: None of the facilities/park areas meet accessibility guidelines
- 2: Some of the facilities/park areas meet accessibility guidelines
- 3: Most of the facilities/park areas meet accessibility guidelines
- 4: The entire park meets accessibility guidelines
- 5: The entire park was developed/renovated using the principals of universal design

Grant Inventory: Grant Number: TF06-006
Park Name: Reed County Park

Gratiot County received a \$495,000 grant from The Michigan Natural Resources Trust Fund in order to develop the outdoor recreation facilities of Reed County Park. This grant accounts for 73% of the total eligible cost of construction for the project facilities, which include a beach house, youth playground, picnic tables, grills, two pavilions, pavement, pathways, utilities, and site restoration.

IV. Planning and Public Input Process

Three methods of soliciting public input were utilized:

1. Questionnaire: Users at both parks were encouraged to complete a questionnaire that consists of two open-ended questions. These questions are:

1. What do you like best about this park?
2. If you could change one thing about this park, what would it be?

Dates Questioner Available 6/6/14-9/6/14

2. Online Survey: Users had access to an online survey that consisted of 6 questions regarding their background information and questions about their experience at the parks and what improvements they would like to see.

Dates Survey Available 12/9/14-1/9/15

3. Parks and Recreation Meeting Ranking Sheet: During a regularly scheduled open meeting Parks and Recreation Commissioners, Parks Staff, and the Public were encouraged to fill out a ranking sheet, prioritizing improvement project ideas for the Parks over the next 5 years.

Date Ranking Sheet Available 4/16/14

Two Question Survey

Survey Monkey Online Survey

The following the survey was available online via a link from the Gratiot County Parks and Recreation Facebook page from Dec. 9th 2014- January 9th 2015. 29 individuals participated; their background information and responses are below:

Q1. What is your age?

Answer Choices	Responses	
18 to 14	10.34%	3
25 to 34	6.90%	2
35 to 44	31.03%	9
45 to 54	31.03%	9
55 to 64	13.79%	4
65 to 74	3.45%	1
75 or older	3.45%	1

Q2. How long have you been a Gratiot County resident?

Answer Choices	Responses	
Less than 1 year	0.00%	0
1 to 5 years	6.90%	2
5 to 20 years	17.24%	5
More than 20 years	75.86%	22

Q3. Which park have you visited in the past year?

Answer Choices	Responses	
Reed Park	80.77%	21
Hubscher Park	65.38%	17
Luneack Park	7.69%	2
Pompeii Park	7.69%	2

Q4. If you have visited a park within Gratiot County in the past year, please provide feedback on your visit related to safety, cleanliness and amenities.

- was good
- they were very clean
- very professional and secure
- clean
- Very clean.
- Pompeii park is coming together so nicely.
- Both were clean, safe, and had plenty of things to entertain both young and old.
- very pleased.
- very good
- clean and orderly
- it nice
- All seemed acceptable; I attended picnics in pavillions
- Fantastic, very clean.
- Reed Park is beautiful, clean, and wonderful place to hang out.
- Great beaches!
- I would say the safety aspects could be worked on.
- Reed Park has improved so much in the last 5 years. So awesome!
- I was at both parks in late fall, they were both clean and I felt safe even walking the trail in the woods
- I have found each park to be very clean, up-to-date in regards to safety, and steadily providing more amenities for residents to enjoy.

Q5. What changes, new amenities or programs would you like to see within the Countys' park system over the next five years?

- Although it would be difficult to obtain, I think a park that wasn't day-use focused would be a nice change. Some land preferably near water where the focus could be on quiet trails, bird and wildlife viewing, and possibly serving as a place for county school systems to enjoy and teach elementary classes on subjects such as wildlife biology. County-wide orv/snowmobile trails would also be an addition that many residents would enjoy. Day-use parks that aren't so centrally located that better serve some of the cities that aren't near the center of the county would be nice to see as well. Registration for in-county residents so that they are easy to differentiate (and not charge) would be a nice change so that out-of-county visitors might pay a small fee to enjoy the parks we built.
- water park
- Restrooms in the campground at Hubscher park
- More disc golf!
- More concessions
- More camping, stocked fish.
- I'm not familiar enough to make suggestions
- snack shacks
- more ball fields
- cleaner water
- None
- Pompeii needs bathrooms with plumbing instead of ports johns. That would complete that park.
- maintain similar staff training make a difference from having a good or bad time.

Citizen Review: After the draft plan was completed, it was made available for public review and comment in March of 2015 It was available for 30 days at the Gratiot County Administration and County Clerk offices. The second public input opportunity for the draft plan was at an advertised public hearing held on April 15, 2015 at the Emergency Operations Center in Ithaca

V. Goals and Objectives

Gratiot County, in order to stay on track for the next five years and provide the most preferred and essential offerings to the community, has developed the following goals for park and recreation facilities, programs, and services. The goals are long-term, broad, and flexible to accommodate any future changes and needs of the community. The objectives are narrower in scope and identify more specific recommendations. Together, they will act as a roadmap for the future development of Gratiot County Parks and Recreation.

1. Develop additional man-made outdoor recreation offerings that could include:

- Additional site amenities- picnic tables, trash cans, grills, pavilion dividers, shade systems
- Basketball courts at Reed and Hubscher parks
- Expand Disc Golf opportunities
- Ball Field upgrades- turf improvements, irrigation, lighting, seating, score boards, equipment storage
- Expand concession offerings
- Additional pavilions at all parks
- Playground expansion/upgrades
- Bathroom facilities for Pompeii & Luneack Parks
- Campground upgrades- water pumps, electricity at sites, additional sites, cabins, bathrooms , shower for Reed Park

2. Maintain and promote the natural resources of the county parks and their recreation and leisure opportunities that could include:

- Expand and Diversify trail system within county parks
- Manage for invasive and nuisance species
- Promote value of the natural resources of county parks to the Gratiot County community

3. Development of the waterfront area that could include:

- Fishing piers at all parks with water
- Stocking ponds with sport fish
- Expand Beach Areas
- Universal access sites
- Boat launches

4. Partner with local organizations to promote recreation throughout Gratiot County

- Promote to outside organizations the opportunity to host events at parks
- Collaborate to promote and offer outdoor recreation opportunities within the county
- Partner to promote and develop trail systems within county; non-motorized natural surface and paved, motorized ORV and snowmobile trails

5. Accessibility Improvements

- Connect additional amenities at Parks with Universal Access walkways
- Additional ADA parking areas within parks
- Acquire more park land to diversify offerings and reduce travel time to parks

VI. Action Program

The Gratiot County Parks and Recreation Department has developed an action program from 2015 until 2020 that will act as a proposed course of development over the five year time period. The action program is based on the goals and objectives distinguished on page 22. It includes the various projects and activities that the Gratiot County Parks and Recreation Department plans to carry out in order to meet the needs of the Gratiot Community.

In creating a comprehensive set of goals and objectives, the Gratiot County Parks and Recreation Department is able to better plan and prepare for the long term. In doing this, it makes it easier for the department to take advantage of unanticipated funding sources and opportunities as they become available. To accommodate for change and unexpected opportunities, the goals, objectives and action program are flexible.
